

Deer Harvest by Community

Tongass National Forest

Land Management Plan Revision
Revised Supplement

- Angoon
- Craig and Klawock
- Coffman Cove
- Edna Bay
- Elfin Cove and Pelican
- Gustavus
- Haines and Skagway
- Hollis
- Hoonah
- Hydaburg
- Juneau
- Kake
- Ketchikan
- Metlakatla
- Meyers Chuck
- Petersburg
- Point Baker and Port Protection
- Port Alexander
- Saxman
- Sitka
- Tenakee Springs
- Thorne Bay and Kasaan
- Whale Pass
- Wrangell
- Yakutat

NOTE: These "pie charts" are technically limited to presenting 25 different communities. Due to this restriction, in a few cases, several communities were combined as shown above. A few communities which had very low recorded use in 1987-1994 are not represented in these pie charts at all.

- ADF&G Hunting Closures *
- WAA with No Recorded Deer Harvest
- WAA with Recorded Deer Harvest

The large number associated with each Wildlife Analysis Area (WAA) indicates the average number of deer harvested during 1987-1994, according to Alaska Department of Fish and Game Hunter Surveys. Each community's harvest within a WAA is represented by that community's colored slice of the pie chart. The smaller number is the WAA number.

* ADF&G closed Kuiu, Kupreanof and Mitkof Islands to deer hunting in 1975. The area remained closed through 1980 and has been gradually reopened in the 80's and 90's. During 1987-1994, this area was mostly closed to hunting.

The Forest Service cannot assure the reliability or suitability of this information for a particular purpose. Original data elements were compiled from various sources. Spatial information may not meet National Map Accuracy Standards. This information may be updated, corrected, or otherwise modified without notification.
